LENSES

Our lenses are made by the world's best optical firms, to Arri's strict optical and mechanical tolerances. Each lens is carefully bench-tested. Because all the costly precision which is incorporated into the Arriflex could be endangered by inferior optics or poor mounts, we must protect Arriflex quality by not selling cameras without lenses.

In special cases where an exception may be made to this rule, we reserve the right to charge for each empty lens socket	50.00
