ECLAIR "CM-3 B" CAMERA

(Coutant-Mathot Patent)  
 (Also known as Cameflex and Camerette)

December 1, 1969

CAMERA BODY SPECIFICATIONS

CODE

PRICE

CM-3 B: "Full" aperture (18.67 x 23.80mm) and full aperture viewing; true mirror reflex shutter (adjustable from 0° to 180°); Kinoptik 360° rotating eyepiece plus right and left eye viewing (ready for use in CAMEBLIMP); magnetic tachometer; three lens divergent revolving turret with cam lock, one turret mount centered on full aperture, other two centered on "academy" aperture; aperture channel protection plate; "academy" aperture slide in matte; instant attachment male dovetail plate and 3/8" tripod screw receptacle.

This camera is delivered in two models:

- |    |   |       |         |
|----|---|-------|---------|
| a) | CM-3 B, standard 35mm only .....<br>Runs 35mm film at standard 4 perforation stroke only (will not run 16mm or 35mm Techniscope).   | CAMCA | 1970.00 |
| b) | 16/35 and Techniscope CM-3 B.....<br>In addition to standard 35mm will also run 16mm film or Techniscope (2 perforation 35mm) merely by sliding a cam and using appropriate mattes (included) and appropriate magazines. No dis-assembly or tools required. | CATAL | 2450.00 |

<u>SPECIFICATIONS</u>	<u>CODE</u>	<u>PRICE</u>
<u>MAGAZINES</u>		
35mm INSTANT LOCKING MAGAZINE FOR 400' with protecting plate and automatic footage indicator showing non-exposed film remaining.....	MACEN	295.00
35mm INSTANT LOCKING STANDARD AND TECHNISCOPE MAGAZINE as above, but with a device allowing its use for Techniscope merely by reversing a gear.....	MASCO	440.00
35mm INSTANT LOCKING STANDARD MAGAZINE for 200' with protecting plate and automatic footage indicator of the non-exposed film.....	MASOI	420.00
35mm INSTANT LOCKING MAGAZINE for 100', with protecting plate and automatic footage indicator of the non-exposed film.....	MAPTI	365.00
35mm Special horizontal 400' magazine for use in Aquaflex.....	MAQUA	555.00
16mm INSTANT LOCKING STANDARD MAGAZINE with removable flanges for standard core loads or for daylight loading spools (100, 200, or 400') protecting plate and footage indicator.....	MANUV	460.00
<u>MOTORS</u>		
VARIABLE SPEED D.C. MOTOR: Standard type 8 to 32 fps with cables in 6/8V.....	MOSIX	267.00
D.C. TRANSISTOR CONTROLLED MOTOR: "Perfectone" type, continuous use, with 8' cable, incorporated electronic regulator and sync frequency generator 60 cycles per second 24 fps only. In 12/15V.....	PERMO	690.00
"Kinotechnique" type, intermittent use, with cable and regulating box: 8 to 40 fps. In 8V.....	DIDOD	550.00
"Kinotechnique" type, continuous use, with cable and regulating box: 8 to 40 fps. In 24/27V.....	DIFOG	950.00
A.C. MOTORS: 110 or 220 V synchronous motors.....		ON REQUEST

<u>SPECIFICATIONS</u>	<u>CODE</u>	<u>PRICE</u>
<u>CABLES</u>		
Set of cables for "kinotechnique" motors for Cameflex.....	CABYK	45.00
Set of cables for "Perfectone" motor for Cameflex and Cameblimp.....	CICDO	65.00
Set of cables for "kinotechnique" motors for Cameblimp.....	DIJEU	77.00

<u>CAMEFLEX MATTES</u>		
Aperture Mattes: ratio 1.37 or 1.66 or 1.85 or 2.33.....	CACHE	50.00
Ground glass mattes solid: ratio 1.37 or 1.66 or 1.85 or 2.33 or TV .....	DECHE	100.00
Same as above, open wire type .....		150.00
Television ground glass mattes (open wire type) for 35mm format.....	FOSTA	138.00

<u>BATTERIES &amp; CHARGERS</u>		
ECA Nickel-Cadmium Batteries:		
12 Volts - VO-9 Battery Pack:		
Provides the extra current surge necessary to operate Cameflex 12 volt motors. Built with 9 AH Nickel-Cadmium cells and will run about 8,000 feet of 35mm film. Built-in charger features a manual regulator for variable rate of charge and meter that reads charging current as well as battery voltage. Pack and charger is mounted inside a leather case with zippered cover and belt for shoulder hanging.....	ASAFDU	400.00
24 Volts - VO-9 Battery Case:		
Heavy duty pack to operate Cameflex equipped with 24 volt motor. Built with HIGH capacity Nickel-Cadmium cells, can run a camera for 10,000 feet of 35mm film. A heavy rate charger is built with manual rate of charge regulation and meter provided to read either charging current or battery voltage. Battery pack and charger are installed in a sturdy metal carrying case with handle and lock. On special order this pack can be made with a voltage switch which parallels the batteries to obtain 12 volts at double capacity so it may run continuously 15,000 feet of film on a camera equipped with a 12 volt motor....	ASAFVI	575.00

<u>ACCESSORIES</u>		
Studio matte-box with bellows and double filter holder and supporting rod:  Two staged for 3" x 3" filters or for one 3" x 4" and one 3" and 3" one rotating type, holder for two "Polaroid" filters with device for optical fade out.....	ROCAM	250.00
Dovetail intermediate.....	TEIQA	72.00
Direct focussing eyepiece for use at aperture (INR 6X)....	LOVIT	150.00
Close up lens extension tube of 22.5mm.....	RACOA	50.00
Standard tele-lens support fits on matte box rods .....	SUPOT	50.00
Heavy duty tele-lens support type RAE for 300mm lens .....	SURAE	250.00
Set of supporting rods for studio matte-box and tele-lens support.....	FISPA	33.00

<u>CASES</u>		
Standard carrying case containing the Cameflex with a 6/8 motor with cable and 3 lenses, 4 spare lenses, two 400' magazines and matte box.....	VALST	110.00
Halliburton case for Cameflex, 3 lenses and motor - foam filled.....	HACAM	143.00
Halliburton case for two 400' magazines foam filled.....	HAMAG	143.00

<u>TRIPODS AND CAMERA SUPPORTS</u>		
PCA: LIGHT WEIGHT TRIPOD FOR CAMEFLEX, with ball leveling, comprising a pan and tilt removeable platform with dovetail fixing for Cameflex and standard International Congress thread screw, control handle, platform support, long alloy legs, safety chain and cover.....	TEFUL	611.00
Set of medium legs (20" to 40").....	TEBMO	204.00
Set of very short legs to make HI hat (7½").....	TEBUC	44.00
Universal clamp allowing tripod head to be attached to table tops, doors, caddies, rails, etc.....	TEGRI	88.00
