MOTORS:

CIMUS-CICLO MOTOR

Perfectone Type, 12v, DC, transistor governed constant speed 24 fps motor, with 60 cycle AC sync frequency generator, with builtin automatic clapper (Ciclo), with four-channel power cable (Cicab)..... \$830.00

CIMUS-CICLO-CIBLO MOTOR

Perfectone Type, 12v, DC, transistor governed constant speed 24 fps motor, with 60 cycle AC sync frequency generator, with builtin automatic clapper (Ciclo), with bloop modified clapper system (Ciblo), with four-channel power cable (Cicab), with bloop pigtail adapter (Apigg)..... \$890.00

DESCRIPTION OF CIBLO MODIFICATION:

Bloop modified automatic clapper system triggers a 1000 cycle oscillator built into recent Nagra Recorders. This tone is recorded on the audio portion of the sound track and is in exact synchronization with the clapper light in the camera. The pigtail adapter allows the use of blooped motors with any standard NPR battery, and also gives the operator a choice of using bloop tone or not as he desires.
